President's Message

Dear Family & Members of CCU Life,

The CCU Home Office is beginning to go back to some form of norm since the COVID-19 stay home order has been lifted. Even when the Governor mandated you stay at home, CCU was still able to be there for their membership and any other issues that arose. Thank you to my Home Office staff and officer. They were great through this difficult time.

Unfortunately, this year's Annual Meeting had to be cancelled due to Coronavirus, but we are trying to think of our members that usually attend and doing what is in the best interest of them and their health. We are anticipating holding the Annual Meeting next year. This is traditionally held in April and we welcome all our members to join us at that time.

Check out our radio advertisement on the 'The New Czech Voice of Cleveland', which airs every Sunday from 3:00 – 4:00 PM on AM 1220. You may be pleasantly surprised to what our ad has to say!

Have a safe & healthy Summer!

Fraternally,
Theresa Aveni
President

WHAT YOU NEED TO KNOW ABOUT LIVING WILLS AND DO NOT RESUSCITATE ORDERS

What would happen if you weren't able to make your own medical decisions due to a bad accident or other health incident that maybe left you unconscious? The two documents you'll need to focus on to establish how you'll want or not want care are your living will and a do not resuscitate (DNR) order.

Living wills

Anyone at least 18 years old and of "sound mind" (ability to understand what the living will is, what it contains, and what it does) can create a living will. When establishing your living will, it's important to consider various care options. Do you want care to extend your life no matter what or only in certain circumstances? If you become terminally ill or permanently unconscious and are concerned about prolonged suffering and maintaining life through artificial means like breathing and feeding tubes and dialysis, you can include instructions for when to cease treatment in your living will.

Your living will becomes effective when you cannot physically communicate your wishes due to terminal illness or permanent unconsciousness. In these circumstances, usually two doctors will examine you and agree that you have a terminal condition or illness that is irreversible and will result in death regardless of treatment. Likewise, a permanently unconscious state would be determined if you were permanently unaware of yourself and your surroundings. Your doctor will certify in writing that these conditions are met and your living will shall take effect.

It's important to note that a living will only affects care that artificially or technologically postpones death, not care that eases pain. Your doctor is required to provide comfort care through oxygen, pain medication, spoon-feeding and other means until your passing.

Do not resuscitate (DNR)

While a living will only goes into effect if you can't communicate your wishes for treatment, a DNR is different. If your heart or breathing stops, a DNR states that medical professionals should not attempt to revive you.

Ohio offers two types of DNR orders: DNR Comfort Care and DNR Comfort Care - Arrest. The difference has to do with when the order goes into effect. As soon as a DNR Comfort Care order is signed, you will not receive any of the treatments listed in the DNR protocol as 'Will Not,' including resuscitative medications, CPR, ventilator care, continuous cardiac mon-

itoring or defibrillation. For DNR Comfort Care - Arrest, you will receive all medical care necessary to treat any illness or injury, including intubation, up until the time you experience a cardiac or respiratory arrest. DNRs are most common in very elderly or frail patients for which resuscitation wouldn't make sense.

A DNR may be completed by a physician, advanced practice registered nurse or a physician assistant with your consent. Individuals with DNR orders can display it with the DNR order form as well as a necklace, bracelet, wallet card or a hospital-type bracelet. All of these items must contain the DNR Comfort Care logo and the patient's name. A living will may contain an individual's DNR choices, but will not be in effect until the living will becomes operative.

The best way to ensure your living will and DNR choices are honored is to inform everyone involved with your care of your preferences. This includes your power of attorney for health care, family members, physicians and any other caregivers. You should have living will and DNR forms/identification up-to-date and available in your house where they can be accessed by others. FIREWORKS

The earliest fireworks came from China during the Song dynasty {960-1279}. Fireworks were used to accompany many festivities. Chinese people originally believed that the fireworks could expel evil spirits and bring about luck and happiness.

The world needed more fireworks, especially now that there was going to be a shortage of beautiful, useless things.

A HISTORY OF THE INTERNET AND SOMETHING CALLED “PHISHING” PART 1

The Internet has completely changed the way our society conducts business and communicates with each other. Most of us are amazed at the technology that enables us to do so much. However, did you know that the Internet was conceived in the late 1960's and even more astounding, it was developed to be completely open! No security at all! No locks, no passwords, and no privacy! So, we as a society took this “open and unsecure network” and we have tried to clamp down as much security as possible by using locks, passwords and high-tech firewalls!

One major component of the Internet is Email. It allows business to correspond with each other and it allows your children to send pictures of the grandchildren doing all the things that you wouldn't have allowed! But with the good, comes the bad. Email also allows “hackers” to enter your “email world” and possibly perform something malicious and mischievous. This is called Phishing or Email Phishing.

A Phishing Email ‘appears’ to come from a legitimate source, like someone you know in your family or even your bank, but it really comes from a hacker and they want your personal information or financial account numbers. These people send out millions of these phishing emails every day, and it costs them nothing. A clue that this is a Phishing Email is the “hurry up and respond now” aspect, such as an urgent alert of possible fraud on your bank account or credit card. This is designed to confuse you and make you doubt your own common-sense mechanisms. Many phishing emails will contain misspelled words, poor or terrible grammar, or even mismatched company names and logos.

What should you do if you receive an email you suspect of being a phishing email? NOTHING... at least right away.

So, how can I tell if an email is legitimate or a Phishing email?

1. Pay close attention to the email address of the FROM person. Does it appear to be coming from a legitimate source.
2. How is the English grammar in the email? If the grammar is bad, chances are it came from a foreign country and poorly translated.
3. Urgency. If the email wants you to “act now” or “don't wait” or “this must be done by midnight, then chances are the email is a scam.
4. Use the “Mouse Over” method. This is explained on our web site at <https://www.XLNsystems.com/MouseOver>

MOST IMPORTANTLY: the IRS, local Sherriff, a bank or credit card company will NOT ask you to do something urgently via an email, nor will they call you on the phone. NEVER. Particularly if they want you to send cash to an address other than the official address of the institution. Along with that; no government agency, bank, or credit card company will EVER ask you to pay an outstanding balance or debt with gift cards or pre-paid cards you can get at the store. This is an extremely common scam, and cannot be traced back to the scammer.

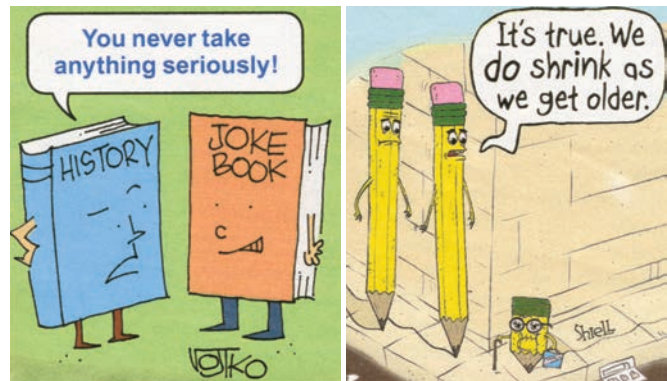

Allen Perk, a lifelong member of the Czech Catholic Union, Society #156, is the CEO of XLN Systems (a cyber security company)

The First “American” Word

In a letter he sent home in 1608, British explorer John Smith described a critter he called a *rahaughcum*. There was no English word for the North American animal, so Smith borrowed the sounds used by the Algonquian.

Over the years, the name was simplified to raccoon, which is now considered one of the first English words coined in America.

St. Corona

St. Corona witnessed the martyrdom of St. Victor, a soldier executed for his faith. While Victor was being tortured and disfigured, the brave 16 year old Corona cried out comforting words and encouragement. Victor's persecutors then turned on Corona and executed her by tying her to drawn palm trees, which ripped her in half when snapped upright. Yet Corona never gave up her faith.

St. Corona provided a model for clinging to Christ even when all seems lost. St. Corona gives us an opportunity to remember our faith and cling to hope, no matter the costs. At this time, she can help us to shoulder burdens and provide relief when we need it most.

St. Corona's feast day is May 14th.

Prayer to St. Corona in a Time of Epidemic

Lord Jesus Christ, You came into this world for our salvation. Look kindly on us now, we pray, that we, and all those who serve You, might be kept safe from this epidemic.

Heal those who are sick, comfort the suffering, bring back those who have gone astray, and above all, increase our faith, O Lord.

Give us the grace to follow You and, like the martyr St. Corona, who gave her life for love of You, to take up our crosses daily without fear or hesitation.

Lord Jesus Christ, Son of the living God, have mercy on us and on the whole world.

St. Corona, patroness of epidemic victims, pray for us.

ANOTHER SAINT ASSOCIATED WITH PLAGUES — ST. SEBASTIAN

He converted to Christianity after seeing the bravery of Christian martyrs and eventually compelled close companions to convert, including a Roman prefect who was cured of a plague when he renounced his pagan idols. Because his intercession to God contributed to the cure of the Roman prefect, Sebastian became widely associated with the cure of plagues, especially in cities throughout the Italian Peninsula. In addition to a patron saint, cities and villages often adopted a “plague saint” to protect them from pestilence. Florence, the birthplace of the Renaissance and cultural hub of Europe, relied on St. Sebastian's intercession after the city's bishop constructed an altar in Sebastian's honor as a last resort to stopping the Black Death. Shortly thereafter, the plague ceased and the bishop built a church dedicated to St. Sebastian in thanksgiving for his intercession

Don't Worry . . . Be Happy

It's a simple philosophy, but one that can have
 vast repercussions. Research shows that most
 illnesses, including headaches, backaches, heart
 disease, and digestive ailments, can be caused or
 influenced by our feelings. A positive attitude will
 help you work better, too. Optimism gives you
 energy and enthusiasm.

1. Don't take everything so seriously.
2. Try to see the positive aspects of problems.
3. Smile.
4. Use positive people as role models.
5. Learn to accept situations over which you have no control.
6. Be satisfied with results once you've done your best.
7. Be part of the solution.
8. Take time to reward yourself.
9. Expect the best, not the worst, both of people and situations.
10. Appreciate the good things that happen.

It's not always easy to maintain a positive
 attitude. Like most things, it requires work.
 But the results are worth it!

Sprache und Literatur", 1792 ("History of the Bohemian Language and Literature"). His grammar of Czech, "Lehrgebaude der bohmischen Sprache", 1809 ("Learning System of the Bohemian Language"), codified the language and brought order to the usage of the literary language.

Josef Dobrovsky died on January 6, 1829 in Brno, Moravia, Austrian Empire (now in the Czech Republic).

Dust

I can't tell you how many countless hours that I have spent CLEANING! I used to spend at least 8-12 hours EVERY weekend making sure things were just perfect - "in case someone came over". Then I realized one day that no one came over - they were all out living life - having fun! Now, when people visit - I find no need to explain the "condition" of my home - they are more interested in hearing about the things I've been doing - while I was away living life and having fun!

If you haven't figured this out yet - please heed this advice. Life is short - enjoy it!

Dust if you must but wouldn't it be better to paint a picture or write a letter, bake a cake or plant a seed. Ponder the difference between want and need? Dust if you must but there's not much time, with rivers to swim and mountains to climb, music to hear and books to read, friends to cherish and life to lead.

Dust if you must but the world's out there with the sun in your eyes, the wind in your hair, a flutter of snow, a shower of rain. This day will not come around again.

Dust if you must but bear in mind, old age will come and it's not kind. And when you go and go you must, you, yourself, will make more dust. Remember, a house becomes a home when you can write "I love you" on the furniture.

ST. PROCOPIUS

Born in Bohemia in 930, St. Procopius was the first saint of Czech nationality. The name, "Procop", is of Greek origin and means "One who makes progress in work." He is the Patron Saint of Artisans, Craftsmen and Tillers of the soil. St. Procopius died in 1053.

Feastday is July 4

Our choice of July Fourth as our day of national celebration is itself significant. It memorializes not a great military victory but an essay explaining why our country exists — the Declaration of Independence

Old Glory

Since the first Stars and Stripes was made in 1777, stars have been added as new states entered the Union until the last two representing Alaska and Hawaii were added - thus totalling fifty stars.

The number of stripes has been reduced to the original thirteen - seven red and six white.

The glory, beauty and simplicity of our flag stir us through sheer force of design. The flag symbolizes our aspirations and achievements as Americans - our struggles and sacrifices - our devotion to the ideals express in the Declaration of Independence.

The thirteen red and white stripes recall to us the history of that long, bitter eight year struggle in which the colonies stood side by side and fought for freedom exemplifying the principle, "In Union there is strength."

Each star in the flag is an emblem that records a great event in the history of the country. Each tell the history of a great sovereign state which has entered the Union. The first thirteen represent the original thirteen states. The other stars stand for the work of those who have followed in their footsteps.

The red stripes proclaim courage - the white stripes liberty - and the field of blue stands for loyalty. Old Glory is truly our symbol of liberty.
